

For too many years,
large caps have had
their way in the
equity pond.

It's time to give the big boys a run for their money.

There's a sea of investor dollars out there, but the largest companies are commanding more than their share.

Now the tables have been turned!

Introducing GlobeNet, the automated trading system designed specifically for under-represented companies. GlobeNet is Internet-based, so individuals and firms "make the market" through online interaction with other buyers and sellers, eliminating unnecessary costs and delays. And, to ensure you receive the exposure you deserve, GlobeNet offers a wealth of comprehensive investor relations services. With GlobeNet, you'll find an advanced market designed to produce greater volume, liquidity and the potential for higher valuations.

If you're tired of the big fish getting too much liquidity in the other stock market ponds, we invite you to become a GlobeNet Charter Company in time for our March 2000 launch. To learn more, stop by www.GlobeNet.com, or call Bob Taylor, Vice President of Marketing, toll free at 1-888-599-4086. Get in touch today, and discover the new big market designed especially for companies just like yours.
